25X1

1. The appended table lists planned production for 1954 and actual production during the third quarter of 1954 of the main products produced by VEB Synthesewerk Schwarzheide, one of the enterprises under the Main Administration for Liquid Fuels under Production Area Chemistry of the Ministry for Heavy Industry.

2. The production listed is Warenproduktion, i.e. production for sale.

3. The table also indicates the ratio of fulfillment (actual production compared with planned production).

| Item                   | Unit         | Production, 3rd quarter 1954 |        | Fulfillment<br>Rate in Percent |
|------------------------|--------------|------------------------------|--------|--------------------------------|
|                        |              | Planned                      | Actual |                                |
| Solvents               | metric tons  | 11,220                       | 7,525  | 67.1                           |
| Motor gasoline         | metric tons  | 7,000                        | 7,013  | 100.2                          |
| Treibstoff D           | metric tons  | 11,550                       | 14,397 | 124.6                          |
| Diesel oil             | metric tons  | 9,770                        | 8,363  | 85.6                           |
| Kogasin                | metric tons  | 4,630                        | 5,132  | 110.8                          |
| Liquid gas             | metric tons  | 4,060                        | 4,320  | 106.4                          |
| Paraffin gatsch        | metric tons  | 1,705                        | 1,790  | 105.0                          |
| Electric power         | thousand kwh | 36,700                       | 27,342 | 74.5                           |
| Total of main products | thousand DME | 24,669                       | 24,948 | 101.1                          |

4. Planned production of auxiliary products (tar, roof paint, tar pitch, Fuller's earth, liquid soap, etc.) during the third quarter of 1954 was 3.818 million DME. Actual production during the same period was 4.995 million DME. The fulfillment rate was 130.8%.
